

Boston May 9<sup>th</sup>

Dear Debora.

Look to it that you bring Phelps's letter to Emerson. Don't dare say fare without it. Ask Mary Longdon to come to us at the N.E. Convention. It is said that Stanton & Whittier are going to Europe. I hear from H.C. Wright, at Phila' that the women's convention was rather good - too there - much talk of a mob and he thought not. The Mayor called on Lu. Mott, asking her not to march with Col'd people or at least to go the back way. No news from N.Y. R. Henry has a letter from Garrison dated Providence on his way thither - & in high indignation with Birney. I have determined to make a right & wrong. out it shall all come, if the enemy don't get it out in advance wh. they sum heat on doing. Tell the R.B. people they will lose nothing by getting ready a stall for our fair - for me will turn to & help them afterwards for a winter fair in N. Bradford. Think of the wicked Phelps & his harem, the Boston Female "Spiritual Wives" with a vengeance! They that live in a house of glass should not throw stones etc. The big den as her love to Bella, and a little stop of the pen being observable while she delivered the message, she adds "make it" Yours in expectation to hear from the battle at N.York
